All patients deserve the highest level of care – even if those patients aren't people. At Terumo, our line of veterinary products are bred for performance and designed to exceed the healthcare needs of pets, and the expectations of both clients and modern veterinary practices. Terumo's line of **Sur-Vet™** veterinary products are specially designed for use in the modern veterinary office.

For over 100 years, Terumo Medical Corporation has been delivering high quality medical products. Our needles are known worldwide for extreme sharpness, with a double-bevel design. In total, we offer more than 1,500 medical products. Our defining mission is to help you, the health care professional, help the patients you serve.

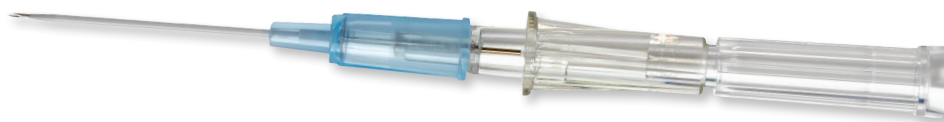

Quality time for better care

Sur-Vet™ Surflo ETFE I.V. Catheters

The #1 Catheter

Recent data provided by Animatech* shows Terumo is by far the market leader among 16 manufacturers of I.V. catheters sold nationwide to veterinary practices. Vet practices recognize Terumo's dedication to delivering uncompromising performance catheters through a nationwide distribution network.

Packed: 50/box, 4 boxes/case (200)

Product Number	Description
	Catheter Needle Gauge
■ SROX1832V	18G x 1 1/4" 20G
■ SROX2025V	20G x 1" 22G
■ SROX2032V	20G x 1 1/4" 22G
■ SROX2051V	20G x 2" 22G
■ SROX2225V	22G x 1" 24G
■ SROX2419V	24G x 3/4" 27G

Over 67% of vets nationwide prefer Sur-Vet™ Surflo ETFE I.V. Catheters.*

*Recent data provided by Animatech market survey on peripheral I.V. catheters 2020.

SURFLO™ ETFE I.V. Catheters

A sharp double-bevel introducer needle plus a medical grade lubricant allow for easier penetration and smoother travel through tissue. Preview chamber in clear sure-grip hub gives immediate indication of proper placement. All this plus safe, easy-to-handle, tamper-evident packaging make SURFLO™ I.V. Catheters a great clinical value.

Packed: 50/box, 4 boxes/case (200)

Product Number	Description	
	Catheter	Needle Gauge

■ SR-OX1851CA	18G x 2"	20G
■ SR-OX1864CA	18G x 2 ½"	20G

These products have no components made of natural rubber latex.

Refer to the product labels and package insert for complete warnings, precautions, potential complications, and instructions for use.

SurFlash™ Polyurethane I.V. Catheters

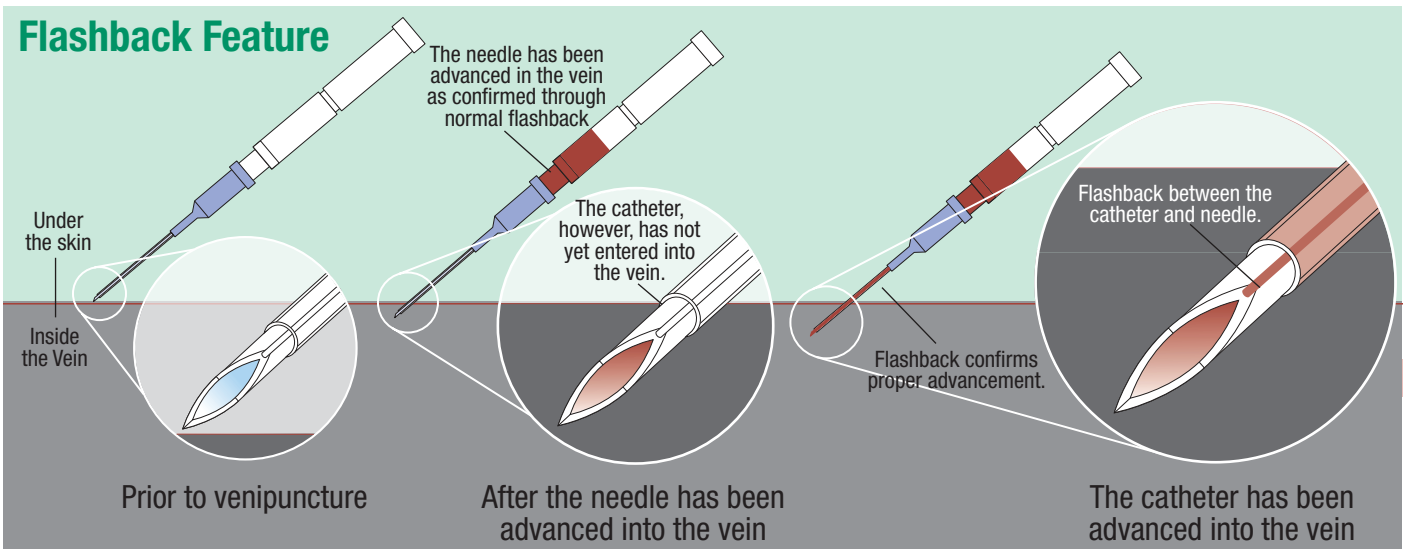

With SurFlash™ visual confirmation of catheter placement occurs due to a unique flashback feature. Flashback appears between the specially grooved needle and the catheter, providing medical staff with a higher certainty of proper catheter placement. And because SurFlash™ is made of polyurethane, which is firm at room temperature and softer at body temperatures, patient comfort is enhanced without compromising proper technique.

Packed: 50/box, 4 boxes/case (200)

Product Number	Description
	Catheter Needle Gauge
SR*FF1451	14G x 2" 16G
SR*FF1651	16G x 2" 18G

SR*FF2419	24G x 3/4" 27G

These products have no components made of natural rubber latex.

Note: The needle insertion angle in the illustration differs from actual insertion angle.

Surshield-PUR Safety I.V. Catheters

Surshield-PUR Safety I.V. Catheters have a passive safety activation with SurFlash™, our exclusive catheter placement indicator. The passive safety device with automatic activation reduces risk of needlestick injury without adding extra steps to your procedures. SurFlash™ enhanced flashback feature provides clear visual confirmation of catheter placement, for increased confidence and first-stick success.*

Packed: 50/box, 4 boxes/case (200)

SurGuard™ 3 Safety Hypodermic Needles and Syringes

With 3 ways to activate and a broader range of sizes than most other brands, SurGuard™3 is the industry's most adaptable safety needle. Add separate thumb and finger grips, sharper needles, and competitive pricing, and you'll understand why we say SurGuard™3 is the one needle that fits every animal health care provider's style.

- 3 modes of activation—thumb, finger, or hard surface
- Separate finger and thumb grips with ridges and nonslip surfaces
- Hub and needle locks
- Broad range of sizes
- Firm injection feel
- Sharpest needles among major brands tested*

SV*S23BLS	23G x 3/4"
SV*S25BLS	25G x 3/4"

These products have no components made of natural rubber latex.

SURFLO™ Winged Infusion Sets

Take a look at our wings versus the competition and you'll see why SURFLO™ is a very well recognized brand. Terumo's soft, flexible interlocking wings readily conform to the body's contour. The needles are bonded to the wings at just under a 3° downward angle, for less risk of vessel damage or occlusion of the lumen. Attach multi-sample luer adapter to winged infusion set to use for blood collection.

12" Tubing

Packed: 50/box, 10 boxes/case (500)

Product Number	Description
SV-18BLK	18G x 3/4" RW

All Competitors

*In Independent laboratory testing, Terumo Sur-Vet™ needles were shown, on average, to be the sharpest among brands tested:

10% sharper than BD (22G - 30G)

16% sharper than Covidien (22G - 27G)

*Data on file. Terumo Medical Products.

Hypodermic Syringes

The plastic blister package is tamper evident for assurance of sterility. The peel-packs provide waste disposal cost savings versus the bulky plastic tube containers of some other syringes. Perhaps most importantly, Terumo syringes with needles offer maximum patient comfort delivered through ultimate sharpness and smoothness.

TB Syringes - 1CC

Packed: 100/box, 10 boxes/case (1,000)

These products have no components made of natural rubber latex.

Hypodermic Needles

Terumo needles are known worldwide for their sharpness and double-bevel design. This attention to detail enables Terumo needles to penetrate skin with less force, which can mean greater comfort for patients.

Frequently Asked Questions and Technical Support

■ How can I contact Terumo Medical Products?

Please visit our website, www.TerumoTMP.com, for more information or phone Customer Care at 1-800-888-3786

■ How can I obtain samples?

Please visit our website, www.TerumoTMP.com to request samples.

■ How can I order Terumo products through a distributor?

To find a distributor, please see Terumo website: www.TerumoTMP.com and click on Customer Support to find a List of Authorized Terumo distributors. Distributors should call Customer Administration for all questions related to orders and invoices: (800) 888-3786

■ How can I obtain pricing?

You must check with your local distributor for pricing since our business is conducted through authorized distributors.

■ Where are you located?

The Terumo Medical Corporate office is located at:
265 Davidson Avenue, Suite 320, Somerset, NJ 08873
1-800-283-7866
www.TerumoTMP.com/Vet

■ What is the shelf life of Terumo Syringes?

Standard Syringes & Needles: 5 years
Injection Plugs: 2.5 years
Standard I.V. Catheters: 3 years
Standard & Safety Blood Collection/Infusion 3 years

■ I'm looking for a 6cc, 12cc, 25cc and a 35cc syringe, does Terumo make these?

Our syringes are labeled nominally as 5, 10, 20 and 30cc's, however, they have service markings to 6, 12, 25 and 35cc's respectively.

■ What's the difference between SurFlash™ & Surflo™ I.V. Catheters?

- SurFlash™ is an I.V. Polyurethane Catheter which allows for a visual confirmation of catheter placement due to its unique flashback feature. SURFLO™ is our regular ETFE I.V. Catheter.
- These products have no components made of natural rubber latex.

■ Do any of your Winged Needle sets contain DEHP or Latex?

No SURFLO™ Winged Needle Sets contain DEHP or components made of natural rubber latex.

■ What is the recyclability of Terumo packaging materials and what does the “Think green. Think Terumo.” icon represent?

All packaging manufactured for Terumo Medical Care Solutions products are made with non-hazardous and recyclable material, and corrugated shipping cartons are made from 100% recyclable paper.

Terumo has engaged in a range of activities aimed at protecting the global environment. One initiative is Terumo's reduction of unnecessary plastic in our syringes, symbolized by our “Think Green. Think Terumo.” icon. Terumo's design has substantially reduced the amount of plastic used in our syringes; and as time and sales have proven this change was made without a reduction in the quality of product performance.
